No I do not have any of those. And the email account electrolips@swisscows.email does not offer 2 factor authentication. I also have had problems with the Colombo crime family on record and I am an ex member of mar a Lago and have been victim to many financial fraud incidents from the trump family. This is not a budgeting tool or a app. I have court cases in federal court that were dismissed illegally by judge cannon in Miami federal courthouse as well. I was a member of mar a Lago for over twenty years. The trump family along with the Colombo crime family has been stealing inventions and patents from me. They all know me personally. This is ongoing fraud. Can you check a little deeper into where these logins came from ?

Thank you for contacting Patelco. I apologize for the delay in our response; I am happy to assist you.

After reviewing the account, I was able to determine that the logins you shared concern for are 3rd party apps. To clarify, you may have budgeting tools or external accounts linked to your Patelco account. Sometimes, the service will check the activity status of your account and that appears as a "login".

Did you know that Patelco's RoundUp Savings tool automatically helps you save with every purchase made using your Patelco debit card? When you enroll, your change will be rounded up to the nearest dollar and transferred to your savings account. You can multiply your roundup by three or five times to boost your savings! To enroll, log into your Patelco Online Banking portal, select Rewards & Wellness, choose RoundUp, and pick your eligible checking account along with your boost option (1x, 3x, or 5x).

Please advise if we can further assist. Thank you for being a valued member of Patelco Credit Union.
